

Capacitar—Our Global Interconnection

The theme of our October Global Gatherings is recognizing our global interconnection as we face the reality of refugees, displaced persons and those in need in our communities and our world. United Nations (UNHCR) statistics for 2024 show that more than 120 million people have been forcibly displaced worldwide as a result of persecution, conflict, violence or human rights violations. This includes: 43.4 million refugees and 63.3 million internally displaced people. Our global gatherings will review some of this international reality, as well as offer Capacitar practices and hand mudras to awaken inner capacities to respond as people of peace, solidarity and compassion. We will have updates from Capacitar International and take time for sharing with each other.

We will run identical sessions each day so you can join the session more appropriate for your time zone.
